

GROTE WARNING LIGHT PROMOTION

GROTE WARNING LIGHTS. Not all warning lights are created equal. Know the certification and regulations for your application and choose the products that will work as hard as you do! Safety first and foremost! Choose from a variety of mounting options including permanent, magnetic and vacuum/magnet mount solutions.

You need to be seen while you are working and others need to see you — be visible at all times with Grote's line of warning lights.

NEW!

IT'S SIMPLE. RESEARCH SHOWS THAT IMPROVED VISIBILITY PREVENTS ACCIDENTS.

↓ 33.7%
REDUCED REAR-END ACCIDENTS

Outfitting your fleet with Grote's new **78462 Auxiliary Strobe & Stop Lamp** may reduce the risk of rear-end collisions by more than a third. Results indicate that by installing a pulsating amber brake light on the back of a fleet of tanker trailers, rear-end collisions were reduced by 33.7%. Grote offers jumpers and adapters to plug into your trailer harness. Contact us for more information.
