

REFRIGERANT TANK SPECIAL

FREON REFRIGERANT TANKS

Keep your air conditioner cool all summer long with these value-size cylinders of R-134A and R-404A Refrigerant. The large size will save you time and money. Instead of purchasing several small cans of refrigerant, just one of these 30lb cylinders will allow for multiple recharges.

R-134A-30

This product is for use in retro-fitted and/or factory installed R-134A auto air conditioning units. Standard ACME threaded cap is included. Meets AHRI 700-2006 and SAE J 2276 purity standards.

**\$88.00
EACH**

Subject to change

R-404A-24

A blend of HFC refrigerants commonly used for medium and low-temperature refrigeration applications. It is non-toxic and non-flammable meeting the highest A1/A1 classification.

**\$119.50
EACH**

Subject to change

Price subject to change without notice. Quantities limited to on-hand stock. Effective January 1st, 2018, applying to Sections 608 and 609 of the Clean Air Act, the EPA requires any purchaser of HFC refrigerant to have completed the EPA 608 or 609 Clear Air Act certification. Please contact North American Trailer parts counter for more information about how to complete this certification.
